TOP SECRET "U"

W.R.C.J.A. Mr. Ferguson

July 31st 1965

Reference: Stabaf Dr. WIRING & ROMMEL

- 1) von KRECHTLEOPOLD describes WIRING as having been introduced into Amt VI by SCHILLERGREN in December 1944 in order to collect, collate and summarize all information so as to act as a "walking" dossier on intelligence matters. SCHILLERGREN himself says that every 2 or 3 weeks all important political reports were summarised by Dr. WIRING and that these were called "ROMMEL reports".
- 2) It is fair to infer from these two facts that the character referred to in PAIR (13700) as ROMMEL is WIRING. These PAIR references show that WIRING received reports from the Amt VI/Mil representatives in Sweden, and suggest that he acted as broker between the Auswertsstelle Amt and the R.I.M. in the matter of the relationship of their respective officials in Sweden. It seems too, that WIRING took part in discussions concerning the future activity of Amt VI/Mil in Sweden, after the closing down of the old KdA station which had been run by Oberst, TACHT, and that he had reached definite conclusions on this question which he had formulated into a report by the end of March 1945.
- 3) KRÄMER's interrogation shows that all political intelligence which he obtained was prefixed ROMMEL when sent by T/P to Berlin. He does not equate this cover name with Dr. WIRING who he says "had nothing to do with the Abwehr". It is not clear from this whether KRÄMER includes Mil Amt when he uses the term Abwehr. If he does, then he is wrong about WIRING consciously or unconsciously; if he does not, then he is clearly quibbling. Either way WIRING will know of KRÄMER (and may supply information about him) and of reports sent by him.
- 4) WIRING is also mentioned by name in PAIR. Once in October 1944 he was the recipient of a telegram from KdA Spain on propaganda matters; on another occasion the head of KdA Spain (Oberstltm. KLEINERSTEIN) asked him to supply political questionnaires. (See 2/1 28, 144, and 26, 145.) Full traces should be available in Section V (L).
- 5) These points indicate that WIRING will be able to supply useful background information on the work of Amt VI/Mil in Sweden and Spain during the last six months of the war, and that he may also be able to elaborate our knowledge of such future plans as had been considered for those countries.
